Professor Inayat Khan R. Pathan entertained the members of The Union Club, Madura, with his performances of both vocal and instrumental music on Sunday the 18<sup>th</sup> inst. He has got a sweet voice and his songs won the admiration of the members present. He is conversant with music of various parts of this Country, as well as with English and Persian music. His attainments in music are of a very high order, and I believe, his music will be appreciated in all countries which he may happen to visit in his present tour.
